Professional Experience

➡ **Mitel Communications Private Limited, Bengaluru**

Designation: Senior Technical Writer

Period: June 2021 to till date

Responsibilities

- Authoring and preparing technical documentation like Online Help Manuals, Deployment guides, Admin Guides, Installation, and Configuration Guides by identifying tasks from Jira tickets.
- Handling assigned backlogs and queries, taking ownership of the documentation tasks, and ensuring their completion according to the documentation plan.
- Collaborating with cross-functional teams, including developers and testers, to gather information and ensure documentation accuracy.
- Communicate with team members and stakeholders by conducting meetings and calls to maintain high accuracy and quality in the document tasks.
- Identify the latest product features on the Jira tickets or the project management dashboard, and then update or develop the documents with the appropriate changes by studying multiple source documents and exploring the product.
- Ownership of any activity and actively contribute to Heretto tasks, including creating Releases, Branches, and Versions.
- Participate in Heretto meetings and provide feedback for improvement.

- Track and manage documentation tickets for future reference.
- Troubleshooting and resolving issues writers face while using documentation tools such as Heretto and RoboHelp.
- Works as an independent contributor to the project team.
- Complete ownership of publishing and managing the Documentation Center.

Achievements

- Received quarterly Game Changer award from Mitel for implementation and taking ownership of the migration process of the new authoring environment- Heretto.

➤ **Siemens Technology and Services, Bengaluru**

Designation: Technical Writer

Period: Nov 2018 to June 2021

Responsibilities

- Create and update various user documents like Online Help Manuals, Deployment guides, Admin Guides, Installation and Configuration Guides as required.
- Identify the latest product features from the project planning meeting and document them in the SIPS+.
- Identify and share the best practices with the technical writing team.
- Works as an independent contributor to the project team.
- Realizing innovative ideas that can improve product support and help implement them.
 - Product Landing Page. This is a one-stop solution for all information requirements within the product. Earlier, the user had to search multiple portals for information such as Newsletters, Software update services, FAQs, Training Materials, Product Documentation, etc. Partners highly appreciated this.
- Conducting root cause analysis and brainstorming sessions to ensure high-quality output from the team.
- Update and manage the document repository with the latest revision of manuals.

Achievements

- Excellent feedback and appreciation from business partners highlighting the contributions in the documentation and on-time delivery of documents.
- Received appreciation from Siemens for my coordinated interactions with the respective scrum teams in enhancing the documentation process.
